Dear sir,

I am very much interested in your work on self-control. I would be very grateful if you could send me reprints of your workt, especially articles and other publications with respect to the measurement of self-control and self-control as a correlate of health and of psychological problems.

My own work is in the field of criminology. With a colleague I am trying to develop a self-control scale which relates to self-control theory as it was developed by Michael Gottfredson and Travis Hirschi, whom you probably know. I am also looking at the crime-accident relationship from the point of view of self-control theory.

Hereby I do send you two publications on this subject. I hope you will find them interesting.

M. Junger
